ROMANTIC DREAM

The romantic style changes your living spaces into an enchanting and enticing realm.

A room which is not only lovely and nice, but also powerful and elegant. Be inspired and enjoy the harmonious sense of space.

The down-to-earth rattan pattern is another eye-catcher with natural radiance and creates an exciting contrast to the reserved plain wallpaper in muted colours. Fine colour nuances and structural patterns ensure that the colours have a natural and particular nice effect. The perfect interplay of décor elements provides idyllic balance.

LOFT LIVING

Unadorned, raw charm, modern, reduced home design, open and flooded-with-light living space, and an exciting material matrix of concrete, plaster and brick walls are the special characteristics of a loft living space. Industrial character, open living concepts and the combination of work and living space are typical of loft living.

50s GLAM

Vintage may be from years gone by but its style never goes out of fashion. The 50s is backwards, elegant and chic, just like it was back then, yet surprisingly different with material visuals and more bling.

The chic aesthetics of the 50s with its vintage character meets modern boldness for extravagance. The style-mix is trendy and timeless with a certain something. 50s Glam is a style for anyone who would like to create a mixture of reserved elegance with modern serenity and opulence as their sense of living.
